

Something New for Fall Leaf Removal and Recycling in the Downtown Boise BID

Falling leaves are a sign that the beautiful fall season is here. Leaves however can be a hazard on sidewalks and in storm drains.

For safety, property owners are responsible to clear leaves from doorways and sidewalks.

- Please **do not** blow leaves into the street. This causes storm drains to clog.
- The best way to remove leaves? **Good 'ole fashion bagging.**

NEW THIS YEAR – Leaf Recycling pick-up in the Downtown Boise business improvement district.

The City of Boise is offering property owners in the Downtown Boise BID the option to have bags of leaves picked up at no extra cost.

What to Know about Leaf Recycling in the BID:

- The leaves must be in compostable bags.
- The Downtown Maintenance Matters Team (DMMT) will deliver the bags to you. For delivery, email the team at dtmaintteam@cityofboise.org.
- Place the bags of leaves alongside regular trash receptacles for pick-up.

Thank You to the City of Boise for offering this valuable service to help keep our downtown clean, safe and welcoming for our employees, customers and guests.

More About Proper Leaf Removal:

The Ada County landfill accepts leaves at no charge for a six-week period in the fall. For more, go to <https://adacounty.id.gov/landfill/WASTE-TYPES-SOLUTIONS/Waste-Diversion-Recycling/Leaves>

The City of Boise has a leaf compost program. For more, go to <https://curbit.cityofboise.org/>.

Thank You for keeping Downtown Safe and Welcoming!

The Staff at the Downtown Boise Association
